

BOOK REVIEW

By Donna Randall for GoodGirlBookClubOnline.com | The Place Readers Love

The Universal Attraction System: How to Easily Attract Your Desires FAST! by Mujiba Salaam Parker, Self-Published, Second Edition 2018, 52 pages.

REVIEW RATING (5 stars)

"**The Universal Attraction System** is a compelling and life changing ebook. Parker's style is non-judgmental; she describes how being ignorant to the universal laws can be devastating. To further reinforce this point, she uses Bible quotations to prove that she is not just putting words together, but most of those words are coming from a reliable source. **The Universal Attraction System** begins with the importance of having a good foundation about the universal laws as most are only familiar with the law of attraction.

Readers are reminded that when you think you can't do something then that idea sticks and it prevents you from actually achieving goals in life. It also conveys how the universal laws can be easily understood and how everything someone desires, wants or needs has already been created.

It is difficult not to like the author's unpretentious and forgiving writing style. I think **The Universal Attraction System** is both amazing and empowering. Readers will glean a valuable and absorbing outlook into how to stay positive and optimistic and achieve the life of their dreams."
